## Hongsoft Free Video Converter Crack For PC

[Download](#)

### Hongsoft Free Video Converter Free Download [2022]

Hongsoft Free Video Converter is an application which allows you to encode video clips to multiple formats, including 3GP and MP4, supported by mobile phones. The tool can be easily handled by all user levels. The interface of the software is plain and simple to work with. Video clips can be imported into the list by using the file browser only, because the "drag and drop" method is not supported. Batch processing is permitted. In the queue you can read the name, source path, format, duration and frame rate of each video. So, once you establish the destination directory and output profile, you can proceed with the encoding job. Furthermore, you can customize audio and video preferences when it comes to the size, quality, codec, bit rate, frame rate, sample frequency rate, channel mode and others. On top of that, you can preview clips in a small, built-in media player and trim them by marking the start and end time values, change the interface skin, set post-task actions (e.g. exit program, turn off computer), and more. The video conversion software needs a low-to-moderate amount of system resources, has a good response time, quickly finishes a task and keeps a good level regarding the image and sound quality. We haven't come across any issues during our tests. Unfortunately, there is no help file available and the interface is outdated. Otherwise, we strongly recommend Hongsoft Free Video Converter to all users. Changes: Stability and performance improvements

Hongsoft Free Video Converter is an application which allows you to encode video clips to multiple formats, including 3GP and MP4, supported by mobile phones. ## What's New in the Hongsoft Free Video Converter?

Hongsoft Free Video Converter is a free video converting program for converting almost any video format to video format of your mobile phone. This application can convert a variety of video and audio formats into any of your supported mobile devices. File formats that can be converted include H.264/MPEG-4 AVC, H.263, 3GP, MPEG-4, WMV, etc. You can create and modify video clips by trimming them with start and end times and you can specify the audio and video quality. In addition, you can convert these media files to the FLV, MP4, 3GP, and other mobile formats with or without sound. All you have to do is just click the "Convert" button to convert your video and audio files to portable devices of any type. Hongsoft Free Video Converter Screenshot: Hongsoft Free Video Converter Requirements: Hardware Windows XP SP2/Vista/7/8 Memory 1.5GB RAM or more Hard disk 10GB or more Processor 800MHz or faster To fully experience the features and functions of Hongsoft Free Video Converter, you need to set the following parameters. 1. The output format(s) and which mobile format(s) you want to convert the video/audio file to. You can select the output video/audio format of any supported mobile device or use the "Custom" option to provide specific output choices. 2. Set the output path and format. The output path can be a single folder path or the location where all output files are saved. For example, you can specify the "F:/" directory to get all the videos to be saved in that location. You also have the option to customize the output format. For example, the output video can be 3GP or MP4 format. If you want to output to a 3GP file on your mobile phone for play on that device, use the "Custom" option and select "3GP". 3. Settings related to output quality. You can set the compression level for video quality, audio quality, and video size. In addition, you can adjust the bitrate and enable/disable other video format options, such as the frame rate, sample frequency rate, and audio channel mode. Hongsoft Free Video Converter Supported Mobile Devices: In addition to converting video/audio files to all of your supported mobile devices, you can also convert them to many other devices such as the following

---

**System Requirements:**

Windows 7 SP1 or later Mac OS X 10.9 or later Processor: 1 GHz or faster Intel Core 2 Duo / AMD Athlon 64 X2 Dual Core or better. Memory: 1 GB or more. Graphics: 512 MB or better.
